'Why we have to fight on...'

Racial Comrades,

Welcome to this the latest installment from Blood & Honour Great Britain, the spearhead of B&H worldwide. We hope you enjoy this issue and get more involved within our closely knit organisation.

Many times people who are new to our scene ask - Why fight on after all the media and state oppression, why its simple, its in our blood. The pride I have in being White is second to none, but its not just about race, I'm British and proud of it too as I expect all Nationals of all countries to be, you must love your land to respect it - and I and many others do.

How could anyone deeply involved just say, "well its easier to play a quiet role and drop out", if they do the commitment was never there in the beginning. Oh and the fight is very, very far from over.

We have a nation ran by a wishy washy 'Liberal' Labour government who plan to open the flood gates to immigrants, lower the age of gay sex (when it should be outlawed), allow hundreds if not thousands of Gypsies into our land to live on state benefit, state benefit that the workers like us have paid for, a government that has shook the hands of terrorists, Blair to meet that scum Gerry Adams and shake his hand is a insult to all the British people from Ulster, Our Armed Forces, and mainland Britain who have stood against these scum and gave their lives, all the innocent victims and their families, this is what makes us fight on.

To quote an old phrase, 'when all others prove unfaithful - WE ARE CARRYING ON - DEFIANT. We will do until this land is at peace with its own people, our culture being promoted not down graded, and national freedom and social justice for all.

For our Nation...John D. B&H UK.

ODINS LAW

ODINS LAW are a fairly new band from British Columbia, Canada, the city of Surrey. They have caught B&H's eye after the release of a very positive, powerful debut CD entitled 'Battle Legions of Wotan' which is reviewed elsewhere, well lets find out whats they are all about, questions answered by Greg the bands vocalist and guitar player....

B&H : When, why and where did the band form ?

Odins Law formed at the end of 1993 in Surrey, B.C. We formed to try and strengthen the skinhead scene in our area and of course to help promote our cause. The bands line up is Myself (Greg) on Guitar and Sing, Fester - Guitar, Darryl - Drums and Brian on Bass.

B&H : Was the band taken from the Skullhead LP or do you have Odinist beliefs ?

Actually we were trying to come up with a name, we were discussing names and at the same time we were listening to Skullhead and as we all had Odinist beliefs the name was perfect.

B&H : You have a great debut CD out, how has it been received by the NS SKin Scene and has it attracted any media attention due to its highly professional sound ?

Our CD has been received very well, infact better than I imagined. We have had reviews in main stream magazines, one being Metal Force from England. Also various NS skinhead fanzines from across the globe etc.

B&H : Could you tell us what gigs you have played and do you plan any abroad ?

We've played several local gigs. We played at the Aryan Nations Compound in Idaho/USA in 1994 and in 1995 with B.F.G. We don't have any definite plans to play abroad but we have had a couple of offers, we'll have to wait and see.

B&H : How is the Canadian Skinhead scene and do you support or belong to any one political party/group ?

The Canadian Scene is quite big but due to the fact that Canada is so big everybody is spread apart. We belong to the Hammerskin Nation.

B&H : Do the band believe in confronting the enemies with the fist or trying to be voted democratically at elections ?

We don't believe in talking, too many do, if the Reds want to f*ck around we will gladly kick their teeth down their throats. Listen to the lyrics of our song 'NHS - Hail Victory', this is how we stand.

B&H : You say you are Hammerskins and your crew is the NHS chapter, is this a strong crew and do you get much hassle off Reds, Police etc ?

Our crew is small but very strong. The reds know better than to mess with us, the Police are not too much of a problem but they do keep an eye on our activities.

B&H : Whats plans have you got for 1998 ?

For 1998 we plan to do some more gigs and record our second album. It is probably going to be called 'Stronger than all'.

B&H : Ed from B.F.G helped you produce your CD, did he have any influence over the sound and style etc. that you play ?

I've been a BFG fan for about 8 years now so yes I would say yes BFG and Ed have influenced our sound but not because he produced it.

B&H : What other bands around today do you like?

My favourite NS bands around now at the moment would have to be : Brutal Attack, Fortress, BFG, Berserkr, Totenkopf, Mistreat and I also like the Ravens Wing CD alot.

B&H : You say you played at the Aryan Nations compound twice, how do you view the Aryan Nations movement and how did they generally go ?

Out of the two gigs the best was definitely with BFG. The Aryan Nations are great, they put Race before everything and don't let religion get in the way like many do and continue to do.

B&H : Away from the band what hobbies have you got ?

A couple of the guys are seriously into Archery and Hunting and 4x4s. I spend most of my spare time with my family, I have 3 children, 2 sons and 1 girl.

B&H : Any closing comments ?

Hail and thanks to Blood & Honour for the interview. And a big thank you and cheers to our fans in Great Britain and Europe. We have some t-shirts for sale, if interested write to us at PO BOX 265, Surrey, BC, V3T 4W8, Canada.

NEO NAZIS VANDALISE MEMORIAL OF BIKO

A statue of murdered anti apartheid activist Steve Biko has been vandalised by South African Neo Nazis with hours of it being unveiled by ANC leader and President Nelson Mandela.

The statue was spray painted with the extremist Afrikaner acronym 'A.W.B'.

Donald Woods, whose friendship with Biko was portrayed in the film 'Cry freedom' said the vandalism was a sign of how much the far right had fallen.

Biko was beaten to death 20 years ago.

Mr Mandela, if you think that it will stop at petty vandalism, beware, the war ain't over until the fat lady sings, oh sorry we nearly forgot you have divorced Winnie, No.1 tyre saleswoman.

WHAT'S

HOT

WITH WHITE ROCK ?

RECORD REVIEWS

BY B.Kilcline -Ulster.

...N.S RECORDS....the main distributor of German outlawed NS music within Europe has yet again an abundance of new releases which range from rock to Oi mostly Oi German style...releases include a split CD from 'Macht & Ehre' and 'Kormando' entitled 'Nacht & Tag', 'Northeim' Vol.1 featuring 23 songs, a new ballad CD from 'Arisches Blut' entitled 'Das Vermachtnis Des Fuhrers', Oi rock from the mighty 'Doitsche Patrioten' entitled 'Patriot fur Deutschland', 'Zyklon B' a new band with a very politically correct CD cover, under our laws I can't print its title, 'Storkraft' a live Cd from the masters of German white power music entitled 'Das Waren noch Zeiten' which includes 23 of the bands best tracks, and a split CD from two popular acts in the form of 'Volkzorn and Kruppstahl' entitled 'Deutschland Erwache'...for a huge list of CDs at competitive prices send now for a catalogue from NS Records at BBC BOX 275, Vesterbrogade 208, DK-1800 F.C, Denmark or alternate also available from NS88, Poste Restante, DK 3400 Hillerod, Denmark.

STORM - 'Is it too late' - Svea Music.

Finally a CD that took over a year and a half to be released, one of Europes best bands brings us this very powerful NS/Oi CD featuring 12 tracks featuring 8 in English and 4 in their native tongue Swedish. Tracks to watch out for are 'Is it too late' 'Our freedom is a lie' and 'this means war' a CD you must get....10/10.

MAX RESIST - 'Second Skin' - N.Music.

The second CD from one of the best USA acts, this time a little rockier than their debut but

this has improved them a great deal, still raw and right to the point aswell. Tracks i enjoy are 'Living in America' 'Maximum Resistance' and 'White Man'. Good cover with touching tribute to the bands ex bassist Wesley Branson who died in a horrific car crash, buy it....9/10.

RAVENS WING - 'Through the looking glass' - Destiny Records.

After 'Ravens Wing' had promised so much with their two tracks on the 'Thundercock' compilation CD I was compelled to buy this but sadly the CD, although it is of good quality is a sheer let down, I always find bands who dump the politics and racial promotion that has made them popular just loose that zap that got you into them, and why try and be commercial, its about white power not HMV...10 tracks with one being good.....3/10.

ODINS LAW - 'Battle Legions Of Wotan' - Viking Sounds Records.

As to complete the interview with Odins Law, heres the CD review, well what can I say, very heavy, very well recorded and good clear vocals, a great CD from a up and coming Canadian band, 14 tracks that include floor stompers such as 'To death we ride' 'Ragnarok' 'Our time will come' 'NHS Hail Victory' and 'We will play on', a must for all heavy musiclovers and NS music fans.....10/10.

METALLICA - 'The Early Days' - Outlaw Recs.

What Metallica in B&H, whats going on, have they become White Power ? Well basically this CD shows the band live at one of there earliest

shows with their original line up before certain members went on to other big named bands. The CD we are reviewing due to the fact a lot of WP Rock fans love Metallica and Tuono Records of Italy have distribution rights for it in Italy and with them being a B&H supportive label we have advertised it for them. Well recorded, very heavy and fast, 8 songs including 'Seek and Destroy' 'Metal Militia' and 'Phantom Lord' buy from Tuono at : C.P Succ.6, 36100 Vicenza, Italy.....7/10.

Tri State Terror Recs presents East V. West Comp.

A limited edition "7 single, Yes on vinyl, featuring 5 bands that are 'Mudoven, Blue Eyed Devils, Dying Breed, Stronghold and Pure Rampage'. Well laid out and exciting, all bands are great, all of it typically American, in that I mean fast and very unpolitically correct. I have two favourite tracks on this being 'Fighting in the streets' a Cockney Rejects cover performed by the mighty 'Mudoven' and Strongholds 'As the battle rages on' but no tracks are bad, get it now from TST at PO BOX 928, Stroudsburg, PA 18360, USA.....10/10.

BLUE EYED DEVILS - Four track "7 single - Tri State Terror Records.

Another vinyl release from the surging USA label, Blue Eyed Devils play a fast hardcore style of White Rock and they have perfected it. Four powerful tracks being 'Yellow Flood' 'Stand Strong' 'What drives me' and 'You're a F**** Jew', nail biting stomping stuff, buy it from Tri State now, cheap at only \$4 in the states and \$6 worldwide, this is the same as the price for the other reviewed single.....8/10.

CENTURION - 'Rides Again' - Rock Tool Records.

The second CD from the masters of heavy thrash music, but I do have a question to ask about the bands politics, now I know the situation with Americans and support for the IRA is divided but I believe Centurion must be supporters of them due to the fact they have a Irish Anthem that ends the CD entitled 'Only our rivers run free' a song with the same tune as republican marxist shite.....so centurion where do you stand?

The Best Soldiers - Compilation - Movement Records.

A good compilation CD featuring songs that I know were recorded well over a year ago. Bands featured are Brutal Attack, Broadsword, Konkwista 88, Stigger, Straftat and Celtic Warrior. Well laid out and packaged. A ballady type of CD that includes Broadsword doing a jazzed up version of Skrewdrivers 'Old Albion' and Stigger

singing two very sincere ballads 'Voyage to Valhalla' and 'Hail, Rain Blood and thunder'. Some of the recording quality is a bit below par but a worthy addition to your collection...8/10

BULDOK - 'Triumf & Screwface' - Gladius Records.

Two CDs sent into B&H HQ from Czech B&H are these two musical gems, Buldok play with power but also harmony, the debut CD by the band 'Triumf' and 2nd CD 'Screwface' show the bands progression. In parts I'd liken them to Judas Priest...get them both from Gladius at PO BOX 35, 59231 Nove Mesto na Morave, Czech Republic.... both score highly at 8/10.

ARYAN - 'Where iron eagles fly' - Resistance.

Aryans second CD and wow what a sizzler, a natural progression has basically meant the band are tighter than their debut CD but still playing a Oi style which suits me fine. Well laid out and good sound quality make this a great release. 12 tracks in all and that includes three Skrewdriver covers which they have done well. Tracks that stand out are 'Crucified Skin' 'Hail white warriors' 'Hail you' and 'Love song'..9/10

MIDTOWN BOOTBOYS - 'Unfinished Business' - Stormfront Music.

Now firstly if your lucky enough to have this you can count your blessings, a very hard CD to get as the label that released it have disappeared - any ideas where then tell all the people they owe material to ?? But onto the CD, what a great second CD, a hellava long time since there first demo that eventually made CD on White Terror but this at least equals the greatness. Fast Oi, Vicious lyrics, catchy tunes, working class level music, not hyped up semi-commercial pop metal like so much about today, the 'Bootboys' have thankfully stuck to their roots of Oi. 18 tracks in all featuring such titles as 'Road Nazis' 'White Kids' 'we will remember' and 'C**** Hunt' with the two best classics on it being 'Road to victory' which truly details how hard NS activists fight on and the foot stomping singalong song 'Boots and Braces' with its shattering bass line, if you can get it do so, if not get a tape off someone like hundreds have already.....10/10.

Do you have a band, a record label, a distribution network, then if you want free publicity in the form of a review which are done fairly then send in a copy of the single, CD, tape or whatever to us at B&H - BCM BOX 6826, London, WC1N 3XX, Great Britain. Blood & Honour is reaching out to more people than ever.

BLOOD AND HONOUR MAIL BOX.

Hi Comrade,

I would like to thank everyone who has sent in letters and I would also like to thank everyone who has looked after Liz and my four kids, I'll be out July 28th '98 with a big bang. I would like to say thanks to Wilf, Jackie, Karen, Slaz, Tic, Kev, Tony, Chris and Wellsy Death to ZOG..F.R.A.N.

Atki P.O.W - Justice for Chris.C.

Dear Blood & Honour,

I have some very interesting news. Recently Tony Banks the Sports Minister came to Reading F.C with his kick out racism in football campaign. During his time here he stated that there were no racists at Reading FC well we have news for him. At our last home game against Sheffield Utd there were about 25 of us planning to go to the next gig. It proves that these left wing scum believe they have stopped Racism but what they don't know is that it is alive and kicking. All they have to do is walk around the ground to see there is graffiti supporting the BNP and other White Power slogans. 14/88...NJ/Reading/West Brom Friendship.

Dear Blood & Honour,

Just a short note, find enclosed a £25 donation, your dedication to the white race is second to none....AI/Inverness

Dear Blood & Honour,

I've just attended your Ian Stuart Memorial Gig in Coventry. I must admit I have kept away for a while amidst all the rumours and bother but having heard lately of all the new bands and of course the new leadership I felt compelled to see for myself. Naturally I was slightly apprehensive at first but what more can I say except F**k*** BRILLIANT. The atmosphere was fantastic - I was welcomed warmly by old comrades that I have not seen for years. The quality and quantity of the bands surprised me (Could this really be the same 'Avalon' I saw 2 years ago ?) and I spent more than I should've on the impressive stalls. All I can say to those who aren't sure - come and see for yourself. I shall once again be attending all Blood and Honour gigs....Cheers...D/London.

Dear Blood & Honour,

Issue 10 of B&H was great, and its really good to see some organisation

and sincerity I read page 22 'CS Gas' and regarding 'The useful bit' about washing your face in the event of a CS attack - PLEASE DON'T. And inform your readers not to either.

I have been gassed on 3 occasions and let me tell you washing your face with water hot or cold just makes it feel 10 times worse. In my experience a clean dry towel pressed against your face is the quickest way to recovery.

F.R.A.N....Marie/Nuneaton.

Dear Comrade Davies,

Many thanks for the recent edition of B&H No.10 which is great, the new concept of 'United we stand' is much better than the leadership of old.

In Germany I can help you with interviews, news etc if you want ? Also can you send me 20 copies of the mag each time, with a view to enlarging this order.

All the best to the new staff.....

88/14 Marcus and Hannover B&H.

Dear Blood & Honour,

I recently bought a copy of 'The Times' which featured a full page spread about the rise of White Power rock across Europe at an alarming rate. What makes me angry is the fact that these so called journalists get paid for just nicking news out of Skinzines and compiling an article out of it for lots of cash, it really does show how little they know.

Firstly if you are proud to be white and like white power rock whats the problem ? I mean each day our youth are bombarded with multi racial garbage and yet self pride is deemed an offence.

Keep on doing what you are doing well.

For a greater Briton...Larry/Whitstable.

Dear comrades,

I enjoyed No.10 of B&H immensely but the article on 'CS Gas' really caught my eye, after the Ian Stuart gig in Caerphilly in '95 a confrontation between B&H and the Plod looked imminent, but low and behold my mates and I were gassed at very close range, this is before Gas was officially even being tested. What ZOG does will never cease to amaze me.

Keep up the fight....Nick/Ulster.

...Send your letters in to Blood & Honour today if you have any comment and point to prove to BQM BOX 6826, London, WC1N3XX.

LEGION OF ST. GEORGE

SKINHEAD RESISTANCE TO A DISEASED SOCIETY

Hailing from West London, and reported on in Issue 9 of Blood & Honour are 'Legion of St. George' one of B&H's regular stage acts at B&H gigs across Britain, after combatting the crowd to a roaring set of White Power anthems in Northants recently, we posed these questions to the band....

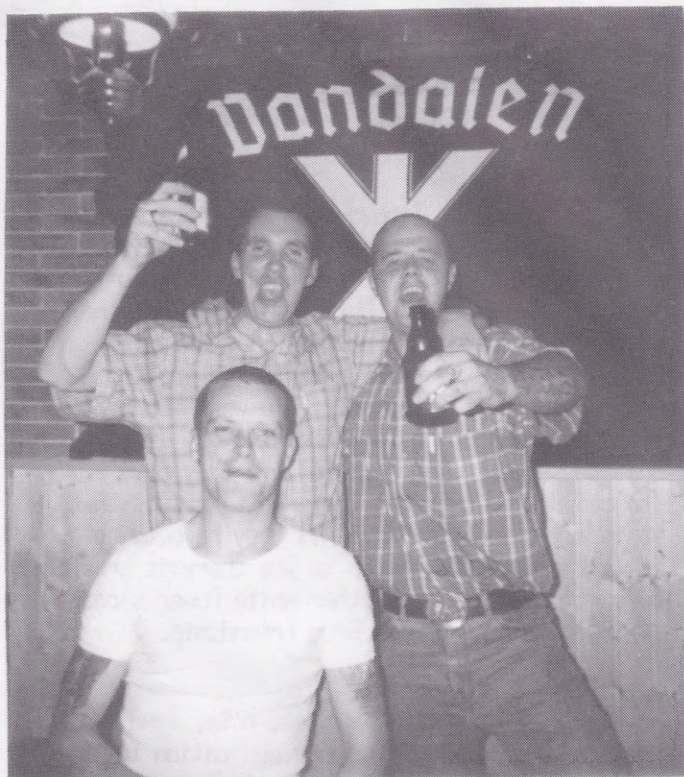

B&H – When, why and where did you form ?

The Legion has been campaigning for approximately two years in the fight for justice and freedom for our people. We formed at a time when our movement was in total disarray – two major bands left the movement in a disagreement and two others were inactive. Chingford Attack emerged to breathe new life and prompted us to have a go. We like to think that our emergence, along with C.A and Conquest has helped push Blood & Honour to its current heights. Now another wave of new bands have emerged in Warhammer, Violent, Outburst and Wolfs Lair making B & H's position one of strength and reason for forming worthwhile. We formed during a West London BLOOD & HONOUR meeting. Luckily all members of 'The' Legion have had previous experience in bands, except for the vocalist (which I think everyone has guessed). After a discussion on the lack of bands and a bit of digging from the B&H cell in East London the band was officially formed.

B&H – Why did you choose the name and is it true you were originally going to be called 'Nemesis'? Why then 'Legion of St. George' (LSG)?

ABOVE : HOMER – Bass Guitar.

ABOVE: LSGs – Si, Rob and Charlie whilst on tour in Germany recently.

The Legion was originally called 'Nemesis' meaning the bringer of retribution and rehearsed under this name for sometime, but a major theme park in the Midlands named its new ride after us. We got so much stick we had to change our name. We wanted a name with an underlying meaning like the aforementioned and decided on LSG because of this and of course its Patriotic stance.

B&H – Could you tell us about some of your bands songs and have the band a favourite ?

The Legion have now amassed 20 battle hymns and they currently reflect our views and anger at the domestic situation of our once great nation. As we mature we will hopefully grow to be able to comment on global matters. Our topics range from the decay of our society and morals, to the glories of our past. The bands current favourite is 'Witchhunt' – the crowds

is undoubtedly 'White Preservation Society', we could probably play that for 40 minutes each gig and get away with it.

B&H - You play an Oi style rather than say metal, or rock music - why is this ?

Everyone says we play Oi style and none of us mind that but its strange. Charlie played in a Oi band but its not a sound that we consciously work towards. Maybe we are all closet Oi boys and haven't come out yet. More likely its because its the easiest to play. Its not a bad thing though as no two bands sound alike.

B&H - You are London based, do you get much hassle from our enemies ? and how is your local NS scene?

The London area we hail from has the same immigration problems as the rest of the town. An unspoken form of apartheid operates and you have White areas and Black/Asian areas. The main problem at the moment is Somalians fleeing three quarters of the way around the world because their lives are in danger, not economic refugees of course. For some reason the area has always been strong in Nationalist fervour and the age group ranges from middle age to teens but everyone has always kept their beliefs. There are still a lot of Skinheads and the amount of young pups is great. Our scene is very strong and thankfully unity and common sense prevail.

ABOVE : Postie 'LSGs' Triangle expert playing live at the recent Ian Stuart Memorial Concert.

ABOVE : Vocalist Si.

B&H - Do you support parties who are active in London like C18, BNP, NF, ITP etc ?

Like the original aims of Blood & honour, we support all right wing parties whether moderate to extreme militant. We just hope that one will rise to unite and begin to conquer the evils of today. Obviously individual members have different choices but we are all united in the march behind the Blood & Honour banner.

B&H - How many gigs have you played and which has been the best ?

Our gig numbers are now well into double figures. I think we lost count after Motorway Meal No.7. We have had the honour of playing with many great names but we all agree our finest hour was with the People Haters in Jan.97. We were red hot for some reason and we all clicked, many of the front row suffered minor burns....well we like to think so anyway.

B&H - Have you any plans to record ? If so tell us more ?

We all agree we are ready to commit to vinyl now and do have a deal offered to us from some German comrades which we shall be taking up, watch B&H for more news on that. We have waited until alot of people have got to know us, we believe its better that way, don't just cash in as your a B&H English band.

B&H - Any band merchandise ?

Currently a Grey T-shirt for £6.50 inc P&P and has a breast design of the three English Lions in a circle with LSG written around it. Buy now, today, this minute from the B&H address,

but please make letters out to LSG. More merchandise may come after the CD.

B&H - How do you view the positiveness of the current B&H movement ?

The re-emergence of the good feeling amongst B&H supporters is fantastic. The monthly gigs are really something to look forward to with a friendly and warming atmosphere and the magazine has once again taken its rightful place as the worlds No.1 - Hail B & H.

ABOVE : Live - Charlie and Evil Ian.

B&H - Which modern day politicians have given you inspiration ?

We take our inspiration from military leaders, people whose action spoke, not their words. So many political figures have been inspirational until the time for action. We could mention many politicians from the past. Today it seems its just a stage for self promotion.

B&H - In 5 years what would you have liked to achieve ?

We think any band that has formed and played has done so against all odds, everything is stacked against you from practising to recording to finding venues to play etc. To last 5 years would be a goal in itself, the bands that have warrant our greatest admiration.

B&H Any closing comments to the readers of B&H?

The closing comments relate to the concerts in Britain. Our numbers have stayed at 150-200 for sometime now but if every person brought one friend we could double that every month. We all know someone who has stayed away due to the past problems or apathy and there is plenty of new blood wanting to go and just waiting for an invite. We know the numbers are out there due to massive sales of B&H and especially CDs. The stronger we are the louder our voice. At the moment we are a sleeping beast of massive potential - lets wake up.

Cheers for the interview, cheers to everyone for putting up with our noise and especially everyone who follows and supports us. You will never know how much your praise and friendship spurs us on.

WE WILL WIN BECAUSE WE MUST WIN.
WE FIGHT FOREVER...L.S.G.

Song of silence

No justice, just the law.

How things have changed. A generation ago views held by people like us would be extolling ordinary opinion. Ordinary middle ground opinion held by Britains working class, middle class and gentry alike.

Political leanings in the present day are categorised as being extreme right-wing through a whole range, until the pendulum swings over to extreme left-wing.

I do not honestly believe that we are as the establishment tell us, extreme rightists. Rather we have been surrounded by a mire of decadence and degeneracy. We are not the extremists, we love our country, our race and nation.

There is total control of the establishment, such as business banking, the media, politics, trade unions, the Police, the schools and actually every facet of post-war Britain. Control is exercised by a minority group about whom we can not speak. This group has under its control substantial numbers of brain washed and misguided renegade whites. Gentile bed fellows blindly foist the multi racial experience onto our small islands.

Alien hordes are fast eclipsing the indigenous Britons. Little wonder that the conspirators are encouraging queers to practise their filthy habits. I reckon there are too few Aryan men to partner. This due to the explosion in mixed race births, nearly always sadly white girls sell out their culture. A culture that it is illegal to propagate in its native country.

How does all of this affect you ? It depends on your reaction to it. From the "Whats the use, I can't change anything" reaction, to the actions of 'The Order' recently in America. There is a whole galaxy of ways one can fight and protest.

The one key thing though is not to get caught out. Problem being here is that lawful activity is interfered with by reds. ZOG agents bent on their scheme to decimate the Aryan gene pool for ever, will do anything. They threaten and commit acts of violence and intimidation. If that doesn't work, never mind, ZOG Police intimidation will. Lawful marches banned, lawful meetings banned. Electioneering proven pointless as elucidated in the blatant gerry-mandering to remove the B.N.P Councillor Derek Beackon from election office on the Isle of Dogs, London.

Accepting that the situation for us patriots looks pretty depressing is academic. We are in direct conflict with the Z.O.G state, maybe even hopefully a terminal collision course, for them. You know it is a dangerous to be right when the system is wrong. Step out of line and stand by for your "collar being felt", summary and arbitrary arrest.

This next part is for you to think about next time it happens to you. Cautioned and under arrest. The charge desk to your front and out are turned your pockets. Sign for your kit, if you want it back. Do not call for a brief. Its pointless antagonising the uniformed Police officers, who many do admit off the record to being in full agreement with our beliefs. They have their hands tied by politically correct appointed senior officers.

Be aware that the change in the caution is so that a dim view is taken in any future court appearance of those not answering questions. The Police are not asking you questions to help you out, you are "helping with enquires" so that they can convict you on your own evidence. Yes if you have a big mouth it will convict you. You will convict yourself without any other proof being needed.

The Police are trained interrrogators, you have nothing to gain from talking to them. The ages old "No Comment" went out with written statements, these days it is not appropriate, do not say "No Comment", DO NOT SAY ANYTHING.

Two options to you are : to stay in your cell and refuse to be interviewed. Do not call for a brief because he will confirm that you refuse to be interviewed. You don't sign anything either that explains that you refuse to be interviewed.

If you go to an interview room go with the Police only. Once the tape machine is on you do not speak, you look away somewhere and do not gesticulate. No sound, no movement until the tape is off. The Police then have an interview tape of themselves talking to themselves. Finally you do not sign the seal on these tapes. You may spend a while longer in a cell whilst an inspector is found to sign the tape for you. From now on the Police records will say that you don't tell them anything and so they will have to rely on other means to get you. Now you have until your court date and then trial date, if they pursue it, that is. Get your story

tidy by then, plenty of time to do it now cos silence gave you a breather. What about the tapes then? 'What tapes your worship, I wasn't asked anything', you will have the pride and satisfaction of knowing you didn't help P.C ZOG to get yourself nicked.

Remember that uncorroberated evidence of a co-accused is inadmissable. that means they can't use what your mate says about you if he did grass. If you hear the "old cherry" that your mate has said this or that, so what, it does not count against you.

STAY FREE BROTHERS COS YOUR'RE NO USE TO ANYONE BANGED UP.

N.S. Bikers

Following the advert in the last issue of Blood & Honour, we are still calling for more National Socialist Bikers to write in. Owning a bike is not enough and does not include riders of plastic rockets. Bikers with an outlaw disposition are ready primed for state oppression. All anti-ZOG groups need to organise along the same lines as back patch M.C bike clubs. Write in or get to a gig and we'll talk.

Harley Davidsons are a latter day Vikings Iron Horse so ride one (writers bias here).

B.F.G. IN HUNGARY

A gig organized by the Hungarian Skins and the N.S.H held a gig featuring B.F.G, Aryan, Valhalla, Archivum, Providence, Nimrod and Verszerzodes at the Flash Club/Budapest.

On June 28th comrades from Hungary organized this gig, about 800 attended from countries including Serbia, Slovakia, Poland, Germany, Russia and of course Hungary.

First band up were Hungarian heroes 'Archivum' who played a strong RAC/Oi set which had the crowd going mad and made the evening start great. They played all there own songs of there tape called 'Showdown'.

Next up was Griffin and Aryan, they slauted the crowd in Hungarian and headed into a set that began with 'N*G* N*G*' which had the hall dancing mad with thunderous cries of 'Sieg Heil', Aryan went on to play songs from both of there CDs and pleased the crowd.

Next up and the reason why most had made the journey to the gig were 'Bound For Glory' who played a wide range of songs from 'Behold the Iron Cross' to 'Warriors Glory', picture it, 800 dancing skins, amazing. They also played some Skrewdriver covers.

Next up were the best Hungarian band 'Valhalla' with Hungarian fans really singing along, dancing and saluting. They played songs from there CD 'Azitel Napja' and 'Hail Victory' the Skrewdriver song in Hungarian and a song written by Ed of BFG.

Next up were a young Hungarian band from Sopron Town, who played 10 songs from there demo and a cover of 'Streetfight' by Skrewdriver, they showed us that the Hungarian scene is very promising.

Last band of the evening was 'Providence' from Serbia who played roughly 45 minutes of old and new material and a cover of 'Barbecue in Rostock' by No Remorse. The crowd welcomed them and sang and saluted them.

This gig proved to be one of the best in Europe ever and showed a good Unity amongst the European Skinhead Army in attendance, well done to the organizers and to all who made it a night to remember, lets hope more gigs go ahead like this. The fight goes on.....

Blood & Honour takes a look at N.S. activity and the White Power music scene in sunny GREECE

Above: Greek NS activists from the NS Party 'Golden Dawn' on the March.

When you think about the country of Greece you can imagine sun and sand, but the country has a lot more than mere tourism, Blood & Honour looks at the scene in Greece or Hellas....

Article written by and supplied to Blood and Honour by George of Athens....

There is no doubt when some of you think of Greece you will think of some of the most glorifying moments of the Aryan civilisation such as 'The Akropolis', 'Alexander the Great', 'Ancient Sparta' and 'Greek philosophy' but Greece has a modern history which is not up to its past. Greece is controlled by Alien Powers (AKA USA) and in the middle of this Greek National Socialists are fighting the fight, a fight for a free Greece in a free Europe.

The main voice for the NS folk is the 'Golden Dawn' which publishes a bi-monthly magazine and a WEEKLY newspaper that has a circulation of roughly 4-5000 copies. It has offices in 11 different cities and membership all over the country in villages, to towns, to cities, Golden Dawn is the only NS party in the country with there being a few small inactive Nationalist parties as well. 'The Dawn' boast that they sent volunteers to boost the Serbian Front during the Bosnian/Serbian war and they have gained valuable votes within its corrupt system from elections in '94 and '95.

The skinhead scene in the country is still in its young stages with the scene being healthy in the years '83-'87 but sadly dying down but a new emergence has seen numbers grow steadily in cities such as Athens, Salonika, Lamia and

Trikala, these are united and of course support the Golden Dawn, on the contrary to skinheads being small in number there are many Heavy Metal Fans that are National Socialists and also some supportive bands mainly Black Metal bands that share NS beliefs, one of these clearly being pro-NS band 'Legion of Doom' with two Cds released in the last two years. Also there is an organised Heavy Metal Group which publishes the fanzine 'The Revenge of Metal' for all the Greek Heavy Metal NS fans, this group supports Golden Dawn 100%. Another band 'Iron Youth' are so far the only out and out 'White Power Metal band' in Greece and although its members belong to a large grouping called 'The Nazi Headbangers' they have a more Hardcore sound with a thrash metal touch here and there. They have a demo tape out with two tracks and have recorded two tracks for a compilation and have plans to record a full length Cd for a German label soon.

This has been my first report from Greece (Hellas) and I really hope we can carry on with more reports to follow soon...Hail B&H.. 88/14.....George from Athens.

If you wish to contact Golden Dawn write to PO BOX 8346, 10010 Athens, Greece, or for bands contact 'Iron Youth' at PO BOX 8162, 100 10 Athens, Greece' or 'Revenge of Metal Zine' at the same address.

Cheers to George for the insight into the Greek movement, if your getting over there be sure to meet up with some of the Golden Dawn lads.

WHITE PEOPLE AWAKE

VIOLENT

BLOOD & HONOUR DERBYSHIRE DIVISION

'VIOLENT' are a part of the emerging new blood inspiring Blood & Honour to grow to new lengths, the band are a gang of young activists who are loyal to promoting the white race on our cities streets and through their straight edged National Socialist music. We caught up with Violent at a recent band practice and asked these questions.....

B&H - Tell us about Violent, its formation and inspiration to form a band ?

Violent was formed in late '96 as a couple of us wanted to form a band within our area, it took a while to get all the members but now we have a steady line up. The main inspiration for doing this was the fact that we all have a lot to say about the love of our race and the politics of National Socialism, and in return we put these feelings into our songs and we hope people will like them.

B&H - Whats the current line up ?

Current line up is Lee (21) - Guitar, Paul (old enough) - Bass, Grit (24) - Vocals and last but not least Graham on Drums (age - early Jurassic period).

B&H - You have formed and been part of the new 'positive' Blood & Honour movement, whats your view on this ?

The progress made by the new leadership and Blood & Honour in general is incredible with new bands emerging, a better magazine, more activities and more new and old faces coming to the gigs. The bands involved within B&H have improved vastly in quality and clearly have put alot of effort into their music. The future of B&H looks very promising with its regular gigs and tell me this, I doubt if any country could match or boast the amount of bands we have here who are all willing to play under a united B&H banner, so yes we are very glad to be included in it all.

B&H - You have played at a few gigs now, how did they go and how did it feel to be on the play list at this years 'Ian Stuart memorial gig' ?

ABOVE DERBYSHIRES 'VIOLENT'

Q4 cont...

The gigs that we have played have all been great, due to the simple fact we played at them. But the first wasn't very good as we had had only 3 hours practice as a 4 piece prior to the gig, but playing at the Ian Stuart Gig was a great honour for us, as without Ian Stuart their would be no White Power music scene, the guitar amp Lee used at the gig wasn't the best and so the power of the band didn't shine through but we all felt we played to our abilities and all enjoyed it, the crowd got involved with one of our more 'politically correct' songs which was great.

B&H - Could you tell us about your songs and which topic is the most important ?

Our songs focus on things that we hold dear to ourselves, 'Bulldogs Can Kill' is about the British Bulldogs fighting spirit, the whitemans spirit that built the mighty British Empire.

'Victory' says it all, how we are willing to do whatever it takes to achieve the final victory. In general our songs focus on NS ideals and our racial survival which is of utmost importance.

B&H - What bands influence Violent musically and lyrically?

First and foremost Ian Stuart and the mighty Skrewdriver, but also by early Brutal Attack, No Remorse, Fortress, Grade One and most of the known white power bands, but Skrewdriver will always be a part of everything we say or do as a band.

B&H - What political figures and writings have proved decisive in generating your NS beliefs?

Adolf Hitler will always be our biggest influence politically, but Lincoln Rockwells 'White Power' is a very insightful book and is a bit more relevant to todays problematic society. Horst Wessel the NS stormtrooper is one of my own personal favourites, he was and is probably one of the biggest NS martyrs and his activism which eventually led to his death played a key role in the early days of the NSDAP in '30s Germany. Rudolf Hess can never be forgotten, a man who gave up everything and even in the face of adversity held onto what he felt in his heart. These are just a few men, heroes of the white race, who urge us to carry on with what we are doing and it gives us a great sense of honour we can be associated with these men and their ideals.

B&H - Are 'Violent' in any political party?

None of the band are in any political party but we do support any party willing to stand up for our race and nation. We support any active NS group that has and does take the action onto the streets against the reds and other enemies of us all and degrade our race. We really can't see a party in Britain right now that corresponds with our 100% NS ideals.

B&H - What other bands have supported you as a band and which bands around today do you like?

AVALON are a great band and a great bunch of lads who have given us continual support and they have come on leaps and bounds, they will blow alot of people away when their CD is released but all B&H bands have given us words of encouragement at each gig. WARHAMMER are incredible though, so new a band, so fresh and so powerful (hello to the lads). Legion are great

and also very popular. My personal favourites are WARLORD and CONQUEST, Stigger has ben a good supporter to the band. We don't believe their is one bad band around in B&H.

B&H - Any recording plans?

Yes hopefully we'll get the chance to record something on a compilation and in the long term eventually do a CD but we'd like to do a split CD with another band if given the chance?

B&H - How do you see the band developing over the coming year?

Over the coming year, hopefully more gigs, improve our sound with maybe a second guitarist, which the wheels are in motion as we speak, create more songs and if the chance arose we'd love to play abroad with one of the great bands like 'Storm' from Sweden for instance but we are willing to play with any B&H bands in Europe.

B&H - Is it true Paul (Vocals) runs a hot dog van and will soon be taking it to gigs to provide refreshments?

Yes it is true, but I don't know what kind of prison sentence you get for mass food poisoning, the word 'refreshments' should be used very loosely as its not so refreshing to sit on the toilet for an hour afterwards.

B&H - Away from the band how do you spend your leisure time?

Paul (Bass) drinks alot of Cider and drives big American Police cars and sometimes both together, he has also been spotted wearing some dodgy Spice Girl trousers lately. Paul (Vocals) poisons the local populace with his B.S.E burgers and likes to bully skateboarding adults. Graham likes to Riverdance at evening classes and Ice Skate and Lee like to weight train and to indulge in the odd bevvy which the day after results in now his famous 'Scaffold Puking' at work.

B&H - Any closing comments ?

Yes cheers to 'The Red Light Driver' for all his help and support, Graham and Avalon for all their help and to all true National Socialists and NS bands, supporters and activists, and lastly Ian Stuart for his inspiration...see you at a gig soon....For BLOOD AND HONOUR.....

VIOLENT.

GIG REPORT VENETO FRONT MARCH ON...

Saturday, 19th July '97/ Vicenza, Italy—
Bands : Coprifuoco (Verona), Attacco Frontale (Florence) and Senfheads (Germany).

Around 400 Skinheads (including a 50 strong gang of Germans following Senfheads) turned up for this summer gig organised by the Veneto Fronte Skinheads (VFS).

First scheduled to play were 'Nervi D'acciaio' but a car accident happened to two of them the day before. So a new band took the stage in there place 'Coprifuoco' (Curfew) with J.C of No Remorse fame on drums. Excellant set for a live debut and they included a few covers of Peggior Amico and Intolleranza.

Then 'Attacco Frontale' went on. They are a good heavy rock band with a touch of Oi, who are ready to release a CD in the near future.

When 'Senfheads' started their set the crowd went wild with Germans and Italians singing together great songs like 'Linke Parasite' (Leftish Parasites) 'Smash the reds' (not the N.R one) and the old Bohse Onkelz track 'Vereint' (United). After some more songs from their first CD they ended with a superb two vocal version of the Endstufe song 'Lass dich nicht unterkriegen' which is a skinhead anthem not only for the Germans.

After the bands had finished the party began with music and drinks until late....in the morning.

Funny as a week before the gig had pressed for the gig to be called off by hounding the media and Police. On the day of the gig 500 Police filled the town to quell a lousy demonstration by about 200 commies.

Even under this pressure with more Police than skins and commies harrassing the townsfolk the gig still went ahead.

It once again showed how the V.F.S have strength, will and a good organization to carry on activities.

Cheers to Caio for the review.

NORHAT

VOICE OF NORWAY

'NORHAT' (North Hate) established themselves back '95 and are a skinhead band from Oslo the Capital of Norway. The bands ages range from 18-20 year olds and they play a heavy metal/Heavy skinhead rock style of music. They have recently recorded tracks for the forthcoming Norwegian release 'Boot Boys Vol.2 - European Skinhead Army' alongside Faustrecht (Germany), Pig Killer (Finland), B-6-B (Sweden) and Varder (a fellow Norwegian band). We recently spoke to Joakim who plays Guitar and Sings and Frank the bass player, the band are currently after a new drummer.....

B&H What does Norhat stand for ?

We are white power nationalists and anti-communist skinheads. Our name Norhat is put together of two words : North because we are Norwegians and patriots, and hate because we hate this stinking system. Our motto is "With music as weapon". We are fed up with the multi cultural society and the uncontrolled immigration into our country.

B&H - What kind of music do you play ?

We play heavy metal music and fast skinhead rock. Our lyrics are radical and bring up our struggle for our nations survival. In Norway foreigners stood for 50% of the population growth last year and 20% of the population within our city of Oslo are foreigners. In schools about 30-35% of the pupils are from foreign cultures with many containing over 95%, something has to be done.

B&H - Have you played many concerts ?

Yes, several in Norway with bands such as Vidkuns Venner, Germania and SS-Totenkopf. Soon we shall be playing in Stockholm, Sweden.

B&H - Any CD plans ?

As mention already in the introduction we have recorded for 'Boot Boys Vol.2 - European Skinhead Army' with 4 tracks, they are : 'End of my race' '100% Pissed off' 'White Pride' and 'Northmen'. One is like a ballad, the others have a strong metal edge to them, we do have a hellava lot of our own songs and yes we would

like to do a Norhat CD in the future.

B&H - Are you politically active ?

Yes, we all took part in the Hess March in Denmark this year and we have established a work alliance in Oslo, under the name of Oslo Bootboys (no connection to the record company). We offer painting and cleaning jobs for a fair price, and put the money into our activities.

We have an advert for this in the Nationalist magazine in Norway

'Fritt Forum' and hope that this can be a success. We are also active in the skinhead scene and

have to fight the red scum almost every weekend. In Oslo the reds and anarchists have got a very big and free house with rent at only £500 a year in the centre of Oslo. Here they gather - and the leftist politicians protect them from Police intervention - for concerts and planning violent attacks against skins who are outnumbered in the various city pubs. But when we are numbering more than 10, they are nowhere to be seen.

B&H - Any messages for comrades in other countries?

Keep up the hard and strong fight against zionist oppression, we will never surrender, and importantly unite, together we are strong.
88/14....NORHAT.

BLOOD&HONOUR 17

BLOOD & HONOUR NEWS

Another quick look at whats going on within the White Rock movement world-wide..

In Great Britain live is as fast track as ever, **No Remorse** will definitely be back in action in the new year, they have been missing for a while due to the fact Wilf the guitarist was in prison due to the production of the infamous 'Black Mags' and 'ISD CD distribution' and on his release the band have had difficulties getting together due to the fact 'Jacko' the singer was working away and now he is a witness at a non-movement relative murder trial, but the 'Barbecue boys' will be back soon.....**Razors Edge** have also returned to the fold after a short break due to the fact two of the band had left - namely 'Martin Cross' whose in prison for murder and his wife Kelly. Razors had a temporary line up that played at this years Ian Stuart Memorial gig but promise us they will be back at it soon, they have also recorded 6 tracks for the German label 'Di-Al' that will feature on a split CD with Germans 'Thors Hammer' (who incidentally have a great CD out). B&H has heard the tape of the recording and gives it the thumbs up, Razors have also since gigged abroad in Germany with fellow Brits 'L.S.G' which although all the British support got nicked and didn't make the gig, the bands did play on..... **Warlord** should be in the studio hopefully by the time you read this and may even be doing a double CD for the GB label 'ISD Records' due for a Jan/Feb release, **Stigger** informs us that it will be rocking so stay peeled, Stigger has also been busy gigging abroad performing 'Patriotic Ballads' gigs, he has played three successful concerts - one at the Danish National Socialist Party's HQ (DNSB) which was apparently recorded and may go onto CD and the other recently in Bratislava, Slovakia which really went down well, Stigger also played a very successful concert in Chilton, County Durham to a good sized crowd of 80+ on the 8th November which was Remembrance Weekend, a good sized donation was made to the local British Legions Poppy Appeal from the door takings and apparently the next day 'Blood & Honour Chilton' laid a wreath at the local Cenotaph, the ballads evening was dedicated to the men who fought for Britain and of course all our brothers of Aryan stock who died in all wars especially Waffen SS Volunteers etc.....**Avalon**

have got another CD deal from 'Movement Records' in Germany and should be putting the finishing touches to it as you read this, it will be titled 'This is War' and shows the Coventry lads in a new light, much faster, more professional and generally all round improvement on there debut CD 'Our Honour is true' which still hasn't been released although it was recorded sometime ago, the label releasing it 'Di-Al' have experienced problems with the law and so all lyrics etc have to be checked to make sure they will not get prosecuted. We await which way this saga will turn as it seems destined to never come out, but when it does, watch this space.....**'Legion of St.George'** also have a deal with 'Movement Records' from Germany and also should be nearing the end of recording there debut CD by the time you read this, titled 'Shadows of the Empire'(originally to be called 'Shermans,Levis and a NO.1 crop) but the CD will feature all the crowd pleasers at gigs plus new tracks tallying upto about 14-16 numbers, the band also have a discreet and good t-shirt available from us here at B&H for £6.50 inc P&P, it features the 'English-three lions' motto with the bands name around it.....**Nordic Warriors** featured in B&H No.10 have changed there name to '**Warhammer**' and have been busily gigging up and down the country for the past 6 months and have gained a good following, the band aim to record for the planned 'ISD Rec.' 'Blood & Honour Vol.3' that will feature all the British bands and should be a belter, Warhammer have t-shirts and badges for sale, catch up with them at the gigs.....**Conquest** are still hard at it, busily rehearsing with a new set they shall be gigging again soon, they have had a short break due to work commitments, and B&h would like to add, to anyone involved in a record label reading this who wants a top notch band than Conquest are your boys, you will not regret it**Chingford Attack** have experienced some problems as of late due to the fact 'Big Mick' the bands singer has seriously hurt his leg but the band should have played the recent 'Mistreat' gig (on as we are in for pressing) and plan a full Cd for 'ISD Records' in January for a March/April release, it is rumoured to be called 'Mad, vicious and from East London'.....lastly from British bands is the fact that we have alot of new blood in the scene, names like '**Wolfslair**' '**Outburst**' '**Close Combat**' and more keep appearing,

Turku Skins '98

but only one live performance from Wolfslair and none from the rest, so come on lads get to it, we are all behind you.

Now a look at other British news concerning the white breed of this nation.....

Firstly the staff of Blood & Honour and all bands within the B&H circuit would like to thank **Mike from Sussex** who without him and his valuable input and generous donation B&H NO.10 would have been impossible, we are very grateful Mike - Cheers and thanks for your belief in us, your support is much appreciated.

A new magazine should be available by the time you read this and is 100% NS and totally Anti-Establishment, The mag is called '**Strikeforce**' and has the catchy slogan 'Kickback, Question, Disobey' as its motto. For a sample copy send £1.50 to Strikeforce, BM BOX 5581, London, WC1N 3XX, any cheques made payable to 'Heritage Posters'.

Recently when England played Italy in Rome for a World Cup qualifier there were riots and a hellava lot of crowd trouble caused by the Police it seems, but low and behold, two days later, it was all the fault of Nazi followers of England. Christ how original, apparently one supporter was spotted with a C18 t-shirt on and then its wham bam, its those Nazis again, one Anti Racist in attendance quoted "I couldn't believe my eyes, I shook with fear".

Labour yet again have been busy keeping all true British Patriots happy as we all thought after their election victory. Firstly they've abolished the law stating that if you marry a foreigner abroad you couldn't automatically bring her back to GB as a GB citizen, so hey watch the flood of new Asian brides, all for the sake of love, I doubt it. Blair and his weasels then plan to open all old bank accounts dating back to Pre-World War 2 to show the Jews and to decide if any was from missing gold etc taken from the

Jews in the thirties/forties, apparently over £40m worth is hidden, Christ and they claim to be persecuted, I bet Christians if rounded up couldn't create this amount, and this is in all countries in the world, Home secretary Robin Cook was quoted saying "This gold is the product of a Million human tragedies". Next up Labour are increasing Mortgage interest rates, very working class eh, next up, Labour allow hundreds of Czech Gypsies into Britain all claiming Asylum, Asylum from whom ??? I didn't know a war was raging or catastrophes were happening in the Czech Republic ? Perhaps I'm wrong, what else will Labour do by the time the next issue of B&H is out, we shall keep you updated.

So the football season is now well under way and as soon as it kicks off 'The Campaign against Racism in football' is launched again with a few 'celebrity' Black and White players supporting it, why do they have to keep relaunching and renewing its commitment, why? I'll tell you why, as it isn't working, true football fans firstly have loyalty written all over them, then they have pride in there team and region, thirdly when your nation plays true nationalism can shine, keep on relaunching it, keep on using F.A money but your fighting a losing war, by the way, any football fans reading this? Tell us your feelings on this matter ?

Surrey Border Front who also promote the '**Reichforce**' as featured in B&H 10 have a new magazine out and are doing some very good NS activities, write to them at PO BOX 216, Croydon, CR9 2ZN.

Lets have a round up of all the international news we have received....

In the USA..**Vinland Warriors** (actually French Canadians) have completed recording there debut CD for a very near future release, the band play Oi influenced music and songs are in both English and French....**Aryan** (featured in B&H NO.10) have recorded 6 tracks for various compilations both in Europe and the states....**Excessive Force** (also Canadian) have released a great demo, the band play a fast thrash type of style and come across very professional....**Bound For Glory** have a new CD available and is entitled 'Glory Awaits', it should be released by now, we'll hopefully review it next edition....**White Wolf** who have proved very popular after the release of there debut CD 'When the ropes stretch tight' have CD No.2 out as we speak, we shall bring you more as we know, we should also have a interview with them in our next edition....**Midtown Bootboys** second CD is now readily available after problems with its original release, Midtown Bootboys took the problem in hand and repressed the CD themselves on there own label 'Midtown Productions', if you liked there first CD, you'll love the second...Mr George Hawthorne founder

and general Guru of Resistance Records is experiencing more problems with the law, fresh from release from prison he has been warned by the Canadian Government that more charges for his production and involvement in releasing CDs that promote genocide, we shall tell you more when we know more.

HEROES NEVER DIE

Serbian B&H band Providence salutes B&H/GB

BLOOD & HONOUR Lyrics

THIS IS WAR BY AVALON

The Teutonic war is raging,
Theres murder on the streets,
Comrades start to fall and die,
For sharing their beliefs,
The left wing have their swindlers,
And assistance from the state,
They always try to drag you down,
With aggression and their hate,

Chorus...Because now they know that this is war,
and they can't stop the pride that roars,
Now they know that this is war,
they can't stop the pride that roars.

The state is mounting pressure,
Its there for all to see,
They cannot practice what they preach,
In their democracy,
They see resistance growing,
They cannot stop the tide,
They may come after you and me,
But cannot stop the pride.

Chorus.

So the fight for our survival,
Against the multi-ethnic dreams,
Is on the streets so full of hate,
To quell our nations screams,
Stand against the traitors,
And the treason that they send,
This war goes on until the end,
And we will never bend.

IAN STUART MEMORIAL CONCERT HELD IN THE WEST MIDLANDS 1997

**IAN STUART
MARTYR
OF THE
WHITE RACE
HIS MEMORY LIVES!**
Blood  **Honour**

On 20th September the night of Blood & Honour bowed its head in remembrance for our sadly missed leader 'Ian Stuart Donaldson', Ian who was involved in a car crash on 23rd September 1993 and died the following morning - the 24th, will always be with us, we have his legacy to carry on and this gig proved B&H lives on in his name. (Racial comrade and friend Boo also died in the fatal crash).

So the scene was set, a good venue, an array of bands on the line up and by the time the first band were ready to go on the room was filled with well over 300 people from all countries including Scotland, England, Wales, Germany, Italy, France, USA and more.

First up to a big cheer from the anxious crowd were emerging B&H band 'Violent' who played a good tight set of outspoken tracks that had the large contingent of support who had travelled to the Warwickshire venue dancing and chanting away, tracks included 'Victory - Whatever it takes', 'Molotov', 'Bulldogs can kill' and a cover of Skrewdrivers 'Streetfight', a good start to the evening.

Warhammer from Geordie land were up next after a short break due to technical difficulties and took the crowd by storm, this band are electric and have a mighty roar of an angry Lion. Their set included plenty of cover versions including a great version of Blitzs 'Someones gonna die' with changed lyrics to 'Do you feel alright, Oi Oi Oi, Blood and Honour are out tonight' plus some great songs of there own like 'Hang the IRA' 'Plague of our land' and the fantastic singalong 'Warhammer', great set from a bunch of great lads.

Local lads Avalon up next, Graham of the band promptly stated that everyone be quiet for a minutes silence, which everyone did with their right hands raised, Graham indicated the minutes silence was over with a huge 'Sieg Heil' which must've echoed across the Midlands. The band then headed into a very tight set of Avalon crowd pleasers such as 'Our honour is true' 'No Surrender' 'Sympathy for the devil' 'The way

its got to be' and some new songs such as a great song called 'Strength and will' which proved very popular with the now dance crazed crowd. Well done lads, see you in Germany in January.

ABOVE AVALON

The Legion of St. George up next, this band really do know how to please a crowd of rowdy racists and they do it well, it seems there sound quality improves each time. Well they headed into a thrashing set of Nationalist anthems that included 'Shadows of the empire' 'Give us back our terraces' 'Liberty taker' 'True sons of St. George' 'Gods right hand' with its very catchy chorus, 'There goes the neighbourhood' and the ever present and explosive singalong, dance along to crowd favourite 'White Preservation Society' which had everyone, and I mean everyone chanting away. A great set from a band that if you haven't seen get out to see them next gig, their CD should prove very popular too if the band can put there live energy on disc.

Conquest then made an unexpected appearance, due to certain circumstances it was thought the band wouldn't be able to play but on the night three of the band arrived minus Mick the bands singer, so Steve, Brian and Tom got on the stage out of a mark of respect to Ian and played a short but good set that included a Guest vocalist called Aky who sang 'Blood and Honour' 'Wonderful

world' 'Chaos' and then the lads did two or three Conquest tracks which included the mighty corker of a song 'Terror Machine', the band did lack the excitement of Mick up front but well done for making the effort.

Chingford Attack were up next much to the appreciation of the travelling army of fans the band take everywhere with them who erupted into singing cockney songs such as 'Roll out the barra' and other Chas and Dave hits. Chingford only played a short set due to time now being short but played crowd pleasers and it did seem funny to see Big Mick the bands singer standing on one leg due to a recent injury whilst playing badminton. Chingford have rawness and energy that really makes the band popular, well and the blunt to the point lyrics I guess, well done the Eastenders.

Razors Edge then took to the stage which in all was there comeback gig after all the upheaval that they have experienced since Martin Cross was involved in Murder. With a temporary line up of Stigger from Warlord and Gary on Bass from Legion along with regular guys 'Sid and Andy' they blasted into a ten song set I think which included 'Jobs not immigrants' 'Marching On' 'Tomorrow belongs to me' which had the crowd singing and dancing away, a great gig from a great band, they promise to be back soon, lets hope so as judging by the response and support they got from the crowd it would be terrible to see them disappear.

Last up were Warlord who came on the stage in front of 300 rather drunk faces, knackered from dancing and starting to think of bed. But hey bang wallop Stigger and his gang storm into a well performed powerful set of Skrewdriver covers and also Warlord songs, suddenly the place was alive again, albeit the dancefloor was like a skating ring due to all the spilt beer and sweat but the crowd hailed Warlord for what they are, that is one of the best around on the whole white rock circuit today, perhaps some new songs are needed though, but the band played Warlords 'Beautiful England' 'Journey Home' and 'Motherland/Fatherland' and covers of 'Hail Victory' 'Night Trains' 'White Power' 'Time to die' and 'Smash the IRA', a great end to a great gig that shows Blood & Honour remembers.

Cheers to the security lads on the night who had their work cut out with all the dancing and cheers to the landlord for the late drink and helping us out, well done the Avalon crew for all the organising and action, although its seems Dizzys perm gets worse, Hail Ian Stuart, Hail Boo, always remembered, never forgotten, Rest in peace brothers.....88/14.

MIDLANDS ACTION

On the 25th October Derbyshire Division of Blood & Honour organised a gig at short notice in the small town of Langley Mill. A decent venue with plenty of foaming ale. Come 8pm the venue was packed solid with about 200 present from the Midlands, North East and London.

Due to some technical difficulties the bands started late. First up were Derbys 'Violent' who played a fast and enjoyable set that included a great cover of Skrewdrivers 'Streetfight' which had the now well bevvied crowd dancing away. A great set from the new boys who were really welcomed by the crowd.

Next up were Geordie lads 'Warhammer' who have by now after only a short time have a good reputation for there powerful set of White Rock anthems. Sadly the band only played 6 of there own tracks and loads of covers, about 10-12 I'd guess, mainly Skrewdriver stuff, although very well played I await more new material from them as the ones of there own they do are by far the best, highlight of the set was the bands swansong 'Warhammer' and 'White Power', howay the lads.

After arriving at the venue late due to traffic problems and literally just through the door, it was time for Avalon to hit the now crowded stage area, awash with security and dancing skins alike. Avalon played without Lee one of the new recruits on guitar but pulled off a great set. Tracks included 'Sympathy for the devil', 'Strength and will' which was very popular, and Andy of Razors Edge joined them for a couple of Skrewdriver covers including 'Free my land' 'Tomorrow belongs to me' and 'The way its got to be' which had the place going made with a sea of salutes and dancing everywhere. Well done the brummies.

Next up and to complete a very enjoyable evening were West Londoners 'Legion of St. George' who roared into a fast raucous set of Oi anthems from 'Give us back our terraces' 'Liberty taker' 'Shadows from the grave' 'There goes the neighbourhood' and 'Pride and Pain', by now the place was really hot, the dance floor like a skating rink but the lads carried on dancing and chanting away, they rounded off a great set with the popular and singalong anthem 'White Preservation society' a must for all gig goers, 10/10 to 'The Legion'.

Another trouble free, very well attended B&H gig, very appreciative Landlord for the high beer sales, and a good time had by all. When you hear of a B&H gig next time - get along, you will enjoy it....Reviewed by NJ/Sheffield.
